

# Thursday, May 10

## Workshop Track Descriptions 1:30-5:00 p.m.

### PUBLIC HEALTH/HEALTH CARE

TITLE	Speaker	Description
Individual Restrictions, Quarantine, and Public Health Realities	Professor Edward Richards	This session will address when individual restrictions, including quarantine, may be used appropriately, and how to prepare for situations when the scale of the problems makes coercive action impossible. The discussion will include planning for post-event legal liability.
Preparing for Pandemic Influenza: The Hospital and Community Perspective	Dr. Stephen Cantrill	A pandemic influenza outbreak would present multiple challenges to our health care system. This presentation will outline the nature of the threat and approaches that can be taken to better prepare for this potential threat.

### FAMILY/BUSINESS PREAPAREDNESS

TITLE	Speaker	Description
Personal Preparedness is Professional Preparedness (Panel Discussion)	Jim Koval Beverly Sobolewski Dr. Wolford MDOT Do 1 Thing	Family Preparedness has two main considerations: what can my family and I do to be prepared for an emergency, and what can government agencies do to support their employees? This workshop will cover both considerations. Participants will come away with everything they need to know to make their own family emergency plan and disaster supply kit, and will what their government agency/employer should do to help support employees and their families.
COOP & COG	Jason Nairn	TBD
Children and Disasters – What you Need to Know	Jodi Spicer, PC JLS Consulting  Dr. Dawn Contreras, PhD MSU Extension	Dealing with a disaster is stressful for everyone involved – but children are especially vulnerable. It is hard to know how to describe what happened and how to handle the complex emotions. Learn more about how to work appropriately with children who are affected by disaster and trauma. Stages of development and age-appropriate suggestions will be shared.

### AGRICULTURE

TITLE	Speaker	Description
Animal Response Planning and the Federal PETS Act	Dr. Nancy Barr, DVM, Michigan Dept of Agriculture Dr. Mark Hansen, PhD, Michigan State University Extension	Hurricane Katrina reminded us that planning for animal response including, evacuation, sheltering, veterinary care, volunteer resources, and carcass disposal are important aspects of emergency planning and response. Presenters will discuss key aspects of animal emergency response with reference to the local emergency plan, the federal PETS Act, and studies related to planning for household animal emergency response.
Strengthening Local Connections with Food, Agriculture & Animals	Brad Deacon, MDA	Michigan's food and agriculture sector contributes over \$60 billion annually to the economy. This session will provide an overview of who's who when it comes to production, processing and retail of the food, agriculture and animal private sector, as well as regulatory officials, associations and interest groups. The session will cover an overview of some of the available information and resources and suggestions on how and where to strengthen local connections in both rural and urban areas.
Protecting Food & Agricultural Critical Sites & Systems	Dr. John Tilden, DVM	Michigan's food supply is provided by an increasingly complicated global network. This session will focus on providing a general overview of security and emergency preparedness from a food supply chain perspective. Strategies for protecting interconnected systems as opposed to individual critical sites will be emphasized. Private and public sector roles for prevention and/or mitigation of food contamination incidents will be clarified.

### RESPONSE

TITLE	Speaker	Description
West Nickel Mines School Shooting Lancaster County, PA	Major Jon D. Kurtz Sergeant Douglas J. Burig  PA State Police	Members of the Pennsylvania State Police will provide a detailed look into the October 2, 2006 shooting at a one room Amish schoolhouse in south central Pennsylvania. This incident, which resulted in the deaths of 5 young girls and the serious injury of 5 others, garnered international attention and was the lead story on most major national news networks for nearly a week. <u>The presentation has been developed from the law enforcement perspective and is appropriate only for a law enforcement audience.</u> Actual audio and video from the police response, as well as some crime scene photographs will be used.

### EMERGENCY MANAGEMENT

TITLE	Speaker	Description
Applying Disaster Lessons Documented and Moving Beyond Special Needs	Ms. June Isaacson Kailes	This session's focus is on ensuring that the needs and priorities of people with a wide range people with disabilities and functional limitations are met in the process of planning for and responding to all hazards. Disaster processes, procedures and systems can be more effective for people with disabilities. This workshop shares a more accurate and flexible framework based on functional needs (maintaining functional independence, communication, supervision, medical, and transportation) and suggests new approaches to leadership, service delivery and training.
TSC Screening	TBD	TBD
MIOC	TBD	TBD

### TECHNOLOGY

TITLE	Speaker	Description
Spatial Intelligence for Homeland Security	TBD	As a tool for comprehensive preparation and quick response to homeland security events, Geographic Information System (GIS) technology is unrivaled. This panel presentation will showcase actual implement of GIS for homeland security at the city, county and state level in Michigan. This session highlights practical examples of how spatial awareness can be implemented to enhance homeland security operations.
MIHAN E-TEAM E-SYSTEMS	TOSS OPHP DR. FALES	TBD

### EXERCISING

TITLE	Speaker	Description
HSEEP	TBD	TBD
